Welcome to Graebel University Online

Our online university was created as an extension of Graebel University in recognition of the fact that learning is a never-ending pursuit that cannot, and should not, be confined to rigid times and places. The ability to disseminate knowledge on an "anytime anywhere" basis reflects the reality of the business world today.

The mission of Graebel University Online is to enrich the learning experience of our "students" and to extend our definition of student beyond our employees - to customers, international alliance partners, and domestic contractors.

Like education itself, this online university will never be completed. It is a work in progress which will evolve, change, and improve over time. We welcome your feedback as we continue to develop and deploy meaningful content that enhances your relationship with Graebel.
